# ABOUT US

---

The Construction Expo has developed a new concept for expositions — an interactive and dynamic show where all the players of the construction industry come together.

The Construction Expo is the leading global event that connects buyers and suppliers, planners and contractors, companies and designers — all in the construction industry. The event focuses on innovation, trends, quality materials, contemporary architecture, green technologies, and sustainable solutions. The two-day fair represents an opportunity to exchange ideas and showcase quality products and services to industry professionals and the public alike.

This year's trade show offers the latest innovations in homebuilding that will inspire you with dozens of new ideas.

## About Tradesman Association of BC

The Tradesman Association of BC is proud to be the first South Asian-led, non-profit organization dedicated to trade professionals in British Columbia's construction industry. Serving a community of over 500 members, we focus on empowering, educating, and connecting our members to resources that build careers, strengthen the industry, and enhance our collective impact on BC's economy.

As the organizer of The Construction Expo, the Tradesman Association of BC continues to champion collaboration, diversity, and growth within the trades — fostering an inclusive platform where innovation and opportunity come together.

# WHY EXHIBIT?

---

## IT'S JUST CONSTRUCTION

Only people from the construction industry will attend this event, and only construct-related products will be on display. That means business opportunities for you!

## A WEEKEND EVENT

No one wants to take time off work to go to the Expo. So we made it easy for them with a weekend show so no one has to alter their work schedule. Higher attendance means more exposure. In addition, since the expo is held over a long weekend, visitors have extra time to visit all the booths and do not have to worry about being rushed.

## MAKE YOUR BUSINESS SHINE!

We are proud to offer you the perfect place where you can showcase your company's products and attract visitors to your booth. By exhibiting with us, you will have an opportunity not only to display your image but also to strengthen your brand image by exposing your products/services to more than 6000+ professionals who visit the exhibition each year.

## LOW COST, HIGHER RETURNS

We are one of the most affordable opportunities. With a low participation fee and a large return on your investment, sponsoring a tradeshow is a cost-effective marketing tool that will drive revenue.

## LOCATION MATTERS

The majority of contractors in the area live in Surrey and surrounding areas. This is very convenient for all of them..

# TIPS FOR EXHIBITORS

If you're trying to boost booth traffic, then here are five ideas to help you attract more visitors to your booth.

## UNIQUE GIVEAWAYS

Everyone loves items that are useful. If you give out promotional items that will be used, they're more likely to remember your business. Items that are relevant to your business will help your customers associate you with what they like.

## ATTRACT PEOPLE WITH GAMES AND PRIZES

If you host a game or two at your booth, you'll not only draw people to your booth with fun games and prizes—you'll also capture the attention of others who gather to watch. This helps you imprint your brand on their mind.

## PROFESSIONAL DISPLAY

When setting up your booth, remember to keep it clean and clutter free. Make sure to showcase the best of your company and products. Your display should show enthusiasm and professionalism.

## PROMOTE ON SOCIAL MEDIA

Social media is a valuable source for growing your brand, connecting with clients, and promoting your products. The more people like your page, the more likes you can spread to visitors, and the greater reach you will have. Promote giveaways to reward your followers, give them an incentive to like your page, and encourage them to share it.

## KNOWLEDGE IS THE KEY

If you have a stand at a tradeshow, your staff should be well informed about your product and able to converse with the attendees in a friendly manner. Staff should never just stand around looking bored.
